

Anti-Smoking
ads run by
tobacco companies
increase the
number of teens
who start
smoking.

Light cigarettes
offer absolutely
Zero health
benefits.
They feel less
harsh, but smokers
breathe in the
same amount of
tar.

In 2022
Philip Morris
spent 12.5 million
lobbying against
tobacco regulations.
R.J. Reynolds spent
5.75 million,
under dozens of
different names.

Cigarette Filters
turn brown even
without absorbing
any harmful
particles.
They are designed
to seem more
effective than
they actually are.

Menthol cigarettes
are not healthier,
but they are
more addictive
than other
cigarettes.
They are also
harder to quit.
(but you can do it :))

~~CAUSE~~
KILLS MORE
DOCTORS
THAN ANY
OTHER
CIGARETTE

Tobacco companies
market more
heavily to black
and gay communities.

Don't let them
kill you!
Quit smoking!
